WETLAND DETERMINATION DATA FORM - Alaska Region

| Project/Site: Susitna-Watana Hydroelectric Project | Borough/City: | Matanuska-Susitna Borough | Sampling Date: | 10-Jul-13 |
|----------------------------------------------------|--------------------------------------------------|-------------------------------------------------------------------------------------------------------|--------------------|-------------|
| Applicant/Owner: Alaska Energy Authority | | Samp | ling Point:S | W13_T127_04 |
| Investigator(s): SLI, SCB | Landform (hill | side, terrace, hummocks etc.): | Mountainslope | |
| Local relief (concave, convex, none): hummocky | Slope: | % / 7.2 ° Elevation: 11 | 12 | |
| Subregion : Southcentral Alaska Lat | t.: 62.940992729 | 8 Long.: -148.99527 | 76965 D | atum: NAD83 |
| Soil Map Unit Name: | | NWI clas | sification: Uplane | d |
| | vear? Yes antly disturbed? ly problematic? | No (If no, explain Are "Normal Circumstances (If needed, explain any ans) | s" present? Yes | • No () |
| SUMMARY OF FINDINGS - Attach site map showing s | sampling point | locations, transects, impo | ortant features, | etc. |
| Hydrophytic Vegetation Present? Yes No | le | the Sampled Area | | |

| Hydrophytic Vegetation Present? Hydric Soil Present? Wetland Hydrology Present? | Yes O Yes O | No 🔍 No 🔍 | Is the Sampled Area within a Wetland? Yes \bigcirc No \bigcirc |
|---------------------------------------------------------------------------------------|----------------|--------------|--------------------------------------------------------------------|
| Remarks: | | | |
| | | | |

VEGETATION - Use scientific names of plants. List all species in the plot.
