Remarks: R2UBH stream, recreational fishermen observed here most days over the past week. gravel-cobble substrates, riffle-pool sequences near point. Cover includes ohv (salix), ucb. point taken on small gravel bar where there are several small (ca 3ft wide) channels extending into riparian willows w nearly continous cover by overhanging salix. 2 small grayling observed.

VEGETATION - Use scientific names of plants. List all species in the plot.
