SUMMARY OF FINDINGS - Attach site map showing sampling point locations, transects, important features, etc.

Hydrophytic Vegetation Present?	Yes ◉ No ○	**Is the Sampled Area within a Wetland?** **Yes ◉ No ○**
Hydric Soil Present?	Yes ◉ No ○	
Wetland Hydrology Present?	Yes ◉ No ○	

Remarks: several depressions with the same substrate in a line along this elevation. This one is the only one currently inundated. They are uphill of what appears to be a lateral morraine. water level about 2 feet below high water

VEGETATION - Use scientific names of plants. List all species in the plot.
